

DECORATIVE EGGS

YOU WILL NEED

TOOLS:

- PAINT BRUSHES
- HOT GLUE GUN / GLUE STICKS

PRODUCTS:

(These are my preferences but our varied ranges have many options for decorating alternatives)

- DECOFOAM EGGS: 49950; 49951; 49952 (three different sizes ... your preference)
- PAINT: ITEMS: 49120; 49123; 49127; 49131; 49134
- GLITTER ITEMS: 88569; 88571; 88579; 88606; 88609
- BUTTONS (asstd. packs) : 46719; 46722
- PINS: 12062 X 5; 12060 x 1
- CRAFT GLUE: 50000
- BLING : 45904 X 1 other colours to choose from (or a trim such as 58488)

INSTRUCTIONS

GLITTER EGGS

- Choose your eggs, paint and glitters
- You will need to empty your glitter into small bowls that your eggs will fit into
- ONE AT A TIME ... PAINT your egg
- While it is still WET dip it into the glitter of the same colour e.g. pink paint / pink glitter
- Lay onto some paper towel to dry

Be creative: mix your colours; or use other glitters from our ranges including shaped glitters.

BUTTON EGG

- Choose the size of egg you want to decorate (if it is a small egg you will need to pick out the smaller buttons to glue on for variety of shape and shade – the bigger the egg the bigger the buttons you can use from the assorted pack. Again, we have other alternatives)
- Using a hot glue gun, glue buttons into whatever order your creativity takes you. To add something extra or to fill in the tiny gaps created by odd shaped buttons stick in some coloured plastic head pins (item 12060)

FANCY EGG

- My choice was a large egg covered with opal glitter item 88569
- Using a strip of stick-on string bling cross it from top to bottom so your egg is divided into four segments
- Using a paint brush; paint the glue on the egg in between the bling strips and dip into the glitter (your choice of colour) until covered.
- Now for the CREATIVE part. Using pearl head pins (item 12062 – or choose another of our ranges of colours.) and create patterns within the segments.
- HINT: to help create something amazing Google Faberge Eggs and become inspired.
